

# List of Studies

## Corn Weed Control Studies

|                                                                                                                |     |
|----------------------------------------------------------------------------------------------------------------|-----|
| No-Till Corn Burndown Trial - Syngenta. . . . .                                                                | 1   |
| Bayer Corn Herbicide Demonstration. . . . .                                                                    | 8   |
| Corn One-Pass Mid-Postemergence Weed Control - Bayer. . . . .                                                  | 30  |
| Corn One-Pass Early Postemergence Weed Control - Bayer. . . . .                                                | 43  |
| One-Pass Preemergence Corn Weed Control Trial. . . . .                                                         | 63  |
| Two-Pass and Postemergence Weed Control Trial - Syngenta . . . . .                                             | 68  |
| Crop Protection Market Development - Corn. . . . .                                                             | 78  |
| Corn Weed Control Programs Showcase. . . . .                                                                   | 97  |
| Corn One-Pass versus Two-Pass Herbicide Systems Demonstration - BASF. . . . .                                  | 116 |
| Corn One-Pass Late-Postemergence Proof of Concept - Bayer. . . . .                                             | 122 |
| Enlist Corn Weed Control Systems, Two-Pass and One-Pass Compared to<br>Commercial Standards. . . . .           | 133 |
| Solstice Programs. . . . .                                                                                     | 144 |
| Anthem / Anthem ATZ Full Sales. . . . .                                                                        | 156 |
| Acuron for Control of Palmer Amaranth. . . . .                                                                 | 169 |
| Resicore Preemergence or Preemergence plus Postemergence or Early<br>Postemergence in Corn. . . . .            | 175 |
| Acuron Bareground Trial. . . . .                                                                               | 183 |
| Acuron versus Resicore Crop Safety Trial. . . . .                                                              | 190 |
| SU/Dicamba Blend (DPX-TEX26) Applied in Spring for Burndown and Residual<br>Control of Winter Annuals. . . . . | 196 |

## Soybean Weed Control Studies

|                                                                                                     |     |
|-----------------------------------------------------------------------------------------------------|-----|
| Scepter Tank Mixtures for Early Preplant in No-Till Soybean. . . . .                                | 203 |
| Fierce Plus Dicamba Burndown EPP17 - Valent. . . . .                                                | 213 |
| Fierce Plus Dicamba Burndown EPP5 - Valent. . . . .                                                 | 219 |
| Evaluation of Marestail Burndown with Liberty Tank-Mixes and Liberty Rates. . . . .                 | 226 |
| Marestail and Waterhemp Control in No-Till Enlist Soybeans with Burndown plus Residual. . . . .     | 234 |
| Preemergence Weed Control in Soybean with Fierce XLT, Authority XL, and Surveil. . . . .            | 242 |
| Dicamba in No-Till Two-Pass DuPont Programs for RR2X Soybeans. . . . .                              | 249 |
| Soybean Herbicide Showcase from Dow and Syngenta versus Competitors. . . . .                        | 259 |
| Syngenta Programs for RR2 Xtend Soybeans. . . . .                                                   | 274 |
| Sonic Followed by Enlist Duo compared to Glyphosate or Glufosinate Based Programs. . . . .          | 291 |
| Two-Pass Herbicide Programs for Xtend Soybeans - DuPont. . . . .                                    | 301 |
| Weed Control with Engenia in RR2 Xtend Soybeans - BASF. . . . .                                     | 313 |
| Syngenta Overlapping Residuals RR2 and LL Soybean. . . . .                                          | 324 |
| Liberty Link Soybean Tolerance and Weed Control with New Rates of Liberty and Tank-Mixes. . . . .   | 339 |
| Palmer Amaranth Control with Cobra plus Liberty. . . . .                                            | 356 |
| PPO-Resistant Waterhemp Strategies in Liberty Link Soybeans. . . . .                                | 361 |
| PPO-Resistant Waterhemp Strategies in Roundup Ready Soybean. . . . .                                | 375 |
| BOLT Technology Herbicide Programs - Southern USA. . . . .                                          | 389 |
| Weed Control in Liberty Link Soybean with Fierce, Fierce XLT or Authority Elite. . . . .            | 400 |
| Scepter Postemergence Tank-Mixes for Residual Weed Control in Liberty Link Soybean. . . . .         | 415 |
| Glyphosate-Resistant Palmer Amaranth Control with Two-Pass Programs. . . . .                        | 424 |
| Scepter Tank-Mixes for Control of Volunteer Corn in Roundup Ready Xtend Soybeans. . . . .           | 432 |
| Volunteer Corn Control in RR2 Xtend Soybeans with SelectMax and Dicamba. . . . .                    | 437 |
| Effect of Soil Herbicides on Roundup Ready 2 Soybeans Under Weed-Free Conditions. . . . .           | 443 |
| Effect of Three-Way Tank-Mixes on Weed Control when Soil-Applied in RR2Y Soybean. . . . .           | 453 |
| Effect of Three-Way Tank-Mixes on Weed Control when Soil-Applied in LL Soybean. . . . .             | 462 |
| Glyphosate-Susceptible Palmer Amaranth Control with Two-Pass Programs. . . . .                      | 471 |
| Effect of Nozzles on Palmer Amaranth Control with Liberty Tank-Mixed with Dicamba or 2,4-D. . . . . | 484 |
| Preemergence Herbicide Screen for Control of Palmer Amaranth - Non-Crop. . . . .                    | 489 |

## Miscellaneous, Including Horseradish and Wheat

|                                                                                             |     |
|---------------------------------------------------------------------------------------------|-----|
| Bicyclopyrone: Tolerance and Efficacy in Horseradish - Site 1 - High Weed Pressure. . . . . | 494 |
| Bicyclopyrone: Tolerance and Efficacy in Horseradish - Site 2 - Low Weed Pressure. . . . .  | 504 |
| Weed Control in No-Till Winter Wheat. . . . .                                               | 514 |

## Indexes

|                                                           |     |
|-----------------------------------------------------------|-----|
| Index of Weeds by Common Name . . . . .                   | 533 |
| Index of Weeds by Five-Letter Code . . . . .              | 534 |
| Index of Herbicides, Fungicides and Insecticides. . . . . | 535 |
| Index of Adjuvants . . . . .                              | 537 |
| Index of Other Experimental Details. . . . .              | 537 |
| Index of Crops . . . . .                                  | 538 |
| Index of Trial ID . . . . .                               | 539 |
| Index of Company Submitted Protocols. . . . .             | 540 |
